

VARADI

EXPORT-IMPORT

Owner and General Manager: Mr. Aleksandar Varadinov

Respectable company VARADI Ltd. started its functioning in the distant 1991 with trade of paper, i.e. raw materials for production of paper packing for the needs of factories and printing houses.

In 2000 the company built (by its own assets) modern capacities for production of PET packing (injecting PET pre-forms and blowing of bottles) as well as building intended for warehouses and administration building.

Located alongside the international highway Skopje - Shtip - Delchevo - R. Bulgaria and, having its infrastructure totally completed, VARADI Ltd. has got ideal conditions for working and communication with its business partners.

Various assortment and high quality of VARADI Ltd. products enable customers to satisfy 80% of their needs, finding also broadly use upon all types of alcoholic and non-alcoholic (soft) drinks packing as well as upon intimate care products packing.

Company VARADI Ltd. disposes with own vehicle park used for transport of its products on the domestic and foreign market. At the time being, products distribution correlation goes like this: 70% - on the domestic and 30% - on the foreign market, with tendency towards increase of distribution on the foreign market. For that purpose, VARADI Ltd. is planning new investments into technology of its production in 2008.

Exactly for its PET packing plant the company is in the phase of getting the ISO standard necessary for good organization of working and later on, it could expect standardization of its products.

Since 2005 VARADI Ltd. has carried out a partial adaptation of some of its production capacities and provided a new machine-park in order to start with production of cardboard packing for the needs of textile, foodstuff and shoe-making industry.
