

RICE FACTORY

DANIVO Ltd

extra rice quality

Owner and General manager: Mr. Ane Eftimov

Reputable company DANIVO Ltd was founded in 2000. It deals with cultivation of cereal, industrial, fodder and other plants, their reprocessing and production of seed material obtained from these plants.

Company DANIVO cultivates 123 ha of agricultural land which is in state property, according to the contract for use during a period of 30 years concluded with the Ministry of Agriculture. The company cultivates

rice on area of 70 ha and it is the biggest brown rice producer in Republic of Macedonia. Its total yield from the harvest of the years 2007 and 2008 was about 455.000 kg of brown rice, i.e. about 250.000 kg of white rice. Besides its production DANIVO repurchases about 200.000 kg of brown rice from individual producers and reprocesses it in its factory located in v. Gorni Podlog near Kochani. The factory has a total capacity for reprocessing of 600.000 kg of brown rice monthly and, within the production process, an adequate expert staff has been engaged.

During the process of land cultivation DANIVO Ltd takes special care for the soil protection against contamination to a certain limit of tolerant level and, that is the basic pre-condition for obtaining ecologically healthy products.

DANIVO Ltd possesses an appropriate modern agricultural mechanization for land cultivation as well warehouses for storing of brown and white rice, digital balances and at its disposal the company has its own vehicle park used for distribution of final products.

DANIVO Ltd has distributed about 440.000 kg of white rice on the domestic market and about 1.150.000 kg of white rice on the foreign markets annually. The company is also present on the markets in: Turkey, Serbia, Montenegro and it has tendency for developing new markets in the EU countries.
