

IVA-Z
ENGINEERING

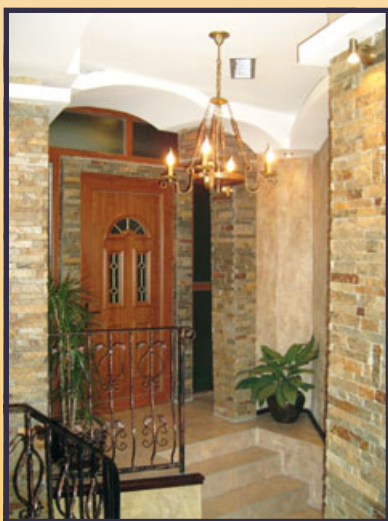

**Owner and General manager:
Mr. Branko Dragshic**

for the people living in those environments where certain number of buildings should be projected or built. By adopting that way of functioning, the company is trying to let architecture and construction being just positive elements in arrangement and ennoblement of space in general.

Company IVA-Z ENGINEERING from Skopje was founded in 2002 for production, turn-over and services. It deals with activities from the sphere of Construction industry according to System Engineering: from an elaboration of project documentation for buildings intended for individual and collective housing, business buildings, interior and exterior arrangement of residential and business rooms all the way to the final realization, i.e. phase of construction.

This company has been realized its activities on the territory of Republic Macedonia. It makes its projects and construction completely acceptable
