

PHI HEALTHCARE CENTER DEBAR

Director: Dr. Jetlumt Pasholli

Dr. Jetlumt Pasholli was born in Debar in 1967. He finished primary and secondary education in his native town, and he finished higher education at the Faculty of Medicine within the University of Zagreb, Republic of Croatia, in 1993. In the period from 1994 until 2001 he was working in the Medical Center – Debar as a general practitioner. In 2001 he started his specialization in general surgery at the Faculty of Medicine in Skopje, and he successfully completed it in 2005. From 2005 until 2017 he was working as a general surgeon in the General Hospital – Debar. Since August 2017 he has been appointed Director of the PHI Healthcare Center Debar. All this time he attended and actively participated in many symposia and seminars in the Republic of Macedonia and abroad, of which he specifically points out the several month stay in the Republic of China at the Shanxi University of Traditional Chinese Medicine, Acupuncture and Acupressure in 2007, as well as his one-month stay in the Republic of Bulgaria in the Tokuda Hospital in Sofia for improvement of the laparoscopic techniques, in 2014. Dr. Jetlumt Pasholli actively speaks Albanian, Macedonian, Croatian, English and Bulgarian language.

The PHI Healthcare Center – Debar was founded in 2005 with a Decision of the Government of the Republic of Macedonia, whereby with the division of the PHI Medical Center – Debar at the time, the PHI Healthcare Center – Debar and the PHI General Hospital – Debar were founded.

Today the PHI Healthcare Center – Debar disposes of a professional staff of 44 employees with a regular employment and 6 employees with a fixed-term employment.

Several services actively and successfully function within the Center:

Primary healthcare service that includes:

- ◆ Emergency medical assistance
- ◆ Rural Doctor Project
- ◆ Polyvalent patronage

Preventive healthcare service:

- ◆ School medicine (school-age children up to 18 years of age)
- ◆ Stomatological healthcare for children up to 14 years of age

Service for immunization of preschool and school-age children

All services successfully perform their activity in the region of two municipalities, the Municipality of Debar and the Municipality of Centar Zhupa. At an annual level the Service for General Medical Examinations performs more than 1.500 examinations, the Immunization Service performs more than 2.000 examinations, the Service for Polyvalent Patronage performs more than 1.800 examinations, and the Service for Emergency Medical Assistance performs more than 12.000 examinations annually.
