

PE KUMANOVO-PARKING KUMANOVO

Public enterprise for parking lots and lighting Kumanovo – Parking Kumanovo

Manager: M.Sc. Fadil Shabani

M.Sc. Fadil Shabani was born in 1971 in the village Cherkezi in Kumanovo, where he finished his primary education, while he finished his secondary education in Gnjilane (R. of Kosovo). He graduated at the Faculty of Law at the South East European University in Tetovo. He acquired the title Master in Legal Science in the field of judiciary by successfully defending the topic “Cooperation of the Western Balkan Countries Through Integrated Border Management”. In 2011 he passed the judicial examination. The first employment of M.Sc. Shabani is in the private enterprise “Dili 71” which he managed successfully for many years. From 2008 to 2009 he was an Advisor to the Director on legal issues in the PE Water Supply - Kumanovo. From 2009 to 2013 he is the Director of the PE Markets – Kumanovo. In 2013 he is appointed Director of the PE Parking Lots Kumanovo. In 2011, the Municipality of Kumanovo awarded Mr. Shabani the November award for manager of the year. During his career of many years he was socially active and he performed several functions and assignments. Some of them include: founder of the Democratic Youth Unity of Kumanovo, founder of the humanitarian organization Mother Theresa, President of the branch of Youth Prosperity for Kumanovo and Vice President of the same at national level, founder of the football club Liria, President of the Community Center of the village Cherkezi, founder of the non-governmental organization Club of Intellectuals – Democratic Club and founder of the scientific magazine Vizione. M.Sc. Fadil Shabani is a family man and a father of two children.

The Public Enterprise KUMANOVO – PARKING Kumanovo is established with a Decision of the Council of the Municipality of Kumanovo in 2009. The establishment of the Enterprise has the following aims: to resolve the problems with parking, especially in the central city area of the city of Kumanovo in a manner that will provide increased number and construction of new parking lots; use of the special vehicle ‘Spider’ in order to establish order and faster traffic flow; management, arrangement and maintenance of the public parking lots in the city; current maintenance of the public and the street lighting; control of the consumption of electricity from the network of the public and the street lighting and construction of a network of public street lighting in parts of the city and settlements where there is no lighting.

In 2010, the Council of the Municipality of Kumanovo adopted a Decision for zone parking of the vehicles in the city area, whereby the territory of the city of Kumanovo was divided into three zones: A, B and C. Since then, the order in the standby traffic is increased. All vehicles that were parked in the public areas for months have been removed, problems have been resolved regarding the parking of residents of the collective residential buildings in the central city area who do not have their own parking spaces.

The payment of the zone parking is conducted by means of SMS messages and parking tickets according to the adopted Price List of the Enterprise approved by the Municipality of Kumanovo. One of the competencies of the PE Kumanovo – Parking is the construction, use and maintenance of a public lighting network, lighting of parks, public traffic areas, settlements, important buildings, as well as lighting of advertising billboards, panels, flashing advertisements and public events. Within the current maintenance, the Enterprise strives to replace the lights at the boulevards and the main thoroughfares in Kumanovo, with new energy-saving lights in all locations where there are technical possibilities. This will provide longer durability of the lights and savings in the consumption of electricity. In the past the PE Kumanovo – Parking was in bad financial condition. However, with the appointment of Mr. Fadil Shabani for Director of the Enterprise and the new management team, these problems have been overcome. The financial condition of the Enterprise is improved, allowing normal functioning and regular payment of salaries to the employees. The future of the PE Kumanovo – Parking is in the hard work of the management team headed by the Director and the employees, as well as in the confidence of the citizens of the city of Kumanovo.
