

## SPORTS AND RECREATIONAL CENTRE

# PARK

At about 80 km from Skopje, on the highway Kumanovo - Kriva Palanka, near the village Ginovci, there is a restaurant on a lake with a zoo and children's playground. The complex has coverage of 5 ha. It includes several small ponds, bungalows, a restaurant with a capacity for 500 guests, children's playground, and a zoo. The beautifully decorated yard, with flowers besides the tables and the path toward the raft and the space around the zoo, is a kind of park itself. The church St. Paul is located on the hill above the raft. This is an ideal place for the fans of recreational fishing, of family weekends in idyllic surroundings of the rich nature, but it is also suitable for seminars, conferences, family festivities and other celebrations.

Complex PARK is not only attractive for the nature lovers, but for the gourmets as well. Those who love good food can taste various specialties, traditional dishes cooked in an oven and in a batch, carp cooked in different ways, various kinds of fish, high-quality barbeque, pies, homemade bread, i.e. food which will satisfy even the most picky gourmets.

The small zoo is the favorite place of the youngest visitors - the children. There are rabbits, pugmy goats, ponies, lamas, ostriches, nutrias and other representatives of the animal kingdom in the cages. The Indian and the white peacocks, as well as the pheasants, are placed in separate cage. In a pond, which is connected to the lake with a narrow canal, there are ducks, swans and other birds.
